I'm thinking about the FNaF*ckboys prequel, which uses Adventure Animatronics to represent the characters' younger self. 1(a) Besuched Freddy, or in this AU Paddy, lives with other pre-Withered animatronics and runs a huge shutdown operation from their landfill apartment. The above version is what it looks like as soon as you arrive from the hospital; all four pre-ran got T-boned at the intersection at 80mph, and none of them wore seatbelts; Correction, Paddy was the only one who did so, and he managed to leave with minor injuries. I like your Animatronic adventure full of bodies! I need them for reference. I'm waiting for more nightmares! Comments Share You were looking for Adventure Shadow Freddy counterparts: Adventure Toy Freddy, Adventures withered Freddy, Adventures of Fredbear, Adventures of Golden Freddy, Adventures of Freddy Fazbear, Adventures of Phantom Freddy, Adventure Nightmare Fredbear, Adventure Nightmare Freddy? I'll eat your soul. - Shadow of Freddy's loading link. UnscREW Pizza Wheel 2Waterhose Shadow Freddy is a shadow animatronic that first appears in Five Nights at 2 Freddy, next to Shadow Bonnie. He also appeared in five nights at Freddy's Three Minigames and is speculated to be a nightmare in five nights on Freddy's 4. Shadow Freddy was believed to be used by the Purple Guy in Five Nights at 2 Freddy's Minigame. Shadow Freddy uses the same model as the Golden Freddy from the second game, but is dark purple instead of gold-yellow. He's got a broken jaw and instead he doesn't have the right eyes, he's got two white irs. His left ear is missing and wires can be seen coming out through the hole. He wears a black hat, bow tie and two buttons. Shadow Freddy is a playable character unlocked by random encounter battles. After defeat can be used by the player in the side. All of Shadow Freddy's attacks are insta-kill with a chance to kill the enemy instantly. It's overall a useful character to finish if a player is lucky. For players who want strong attacks that are not based on chance, it is not recommended. Shadow Freddy attacks are a black attack that has a 30% chance of instantly killing the enemy. - Yellow attack that provides a possible instant attack to kill, but with a lower chance than unscREW. - black attack Kills all enemies under 30% health. Originally, Shadow Freddy had Pizza Wheel 2, which was shown in the teaser game. But it was replaced by Esc Key during the release of the game. If you look at it up close, you can see that Shadow Freddy's jaw is slightly broken. When he's spinning his head, his jaw swings along. Unlike Golden Freddy, which has a similar look to him, Shadow Freddy is able to stand. That's something paranormal, because Shadow Freddy doesn't have an endoskeleton. His bio is just to make him creepier, because most FNAF World characters are adorable. His attacks, which have rare chances of damaging enemies, are just his main counterpart making rare appearances. When it's spinning its head, there's a spark. The enemy of Redbear is a palette swap from him. Freddy shadow on the cover screen with other characters. Shadow Freddy on select Character. Shadow Freddy on 2. Shadow Freddy as a challenger. Add a photo to this Shadow Freddy gallery in the latest preview. Freddy Fazbear, Toy Freddy, Phantom Freddy, Golden Freddy, Shadow Freddy, Nightmare Freddy, Nightmare or Fredbear? Because we needed one more. - Withered Freddy is loading the message. Withered Freddy is one of the main opponents of five nights at 2 Freddy, having played Five Nights at 2 Freddy, along with his counterpart Toy Freddy and Shadow Freddy. He's Freddy's broken counterpart. Withered Freddy looks a lot like Freddy, just that he's a little taller, and he's got a darker brown color. She also has faded light grey eyes and long eyebrows. He has a black bow tie, two black buttons and a black hat, as well as his other counterparts. Some parts of his costume are broken or torn, revealing parts of his endoskeleton. Like most other characters, he also has four fingers and three fingers. Toss freddy is a playable character at FNaF World. In order to be at a player's party, the player must find him and beat him in a random battle of the meeting. The arm of Freddy acts as a support/fighting character who can deal with some decent amount of damage. Try to spam Esc Key if you fight hordes of enemies that are stronger than you. Use Gloom Song once in a while to paralyze the enemy's attacking power. Microphone Toss should be used when there is only one enemy on the left. Overall, Withered Freddy is a pretty decent figure, but he should be replaced later in the game when you have better characters to fight with. Although, W.Freddy may still be a promising supporting figure with his attack on Gloom Song. Esc Key may also be a slightly useful attack that can still instill all enemies on the screen, but less than UnscREW. Mic Toss will most likely be an outdated attack later in the game. To befriend Freddy's attacks are: an attack that damages one enemy, step that temporarily reduces all Attack, Thrust likely to kill all enemies on the screen, but less likely than the movement unscREW. Battle Theme for Withered Freddy in Thank You teaser Withered Freddy didn't have a beard. His pupils are much smaller than his old model. In Foxy.exe a mini-game, its original FNaF model is seen when it jumpscares a player. This makes him the second character to make his model of the original FNaF games is recreated for the FNaF world. First being Withered Foxy, FNaF 1 Freddy and Cupcake models can count, too. In his attack animation, he appears to bring his head closer to the front. It refers to jumpscares by its counterpart. His bio is the only original Freddy Fazbear returning to FNaF 2. S.Freddy in the latest teaser. He caught Freddy in the second teaser. He captured Freddy's Merry Christmas image. Add a photo to this Selected for Party gallery. He captured Freddy in battle. He was ching Freddy as a challenger.
